The "mystery" of the French embassy present, which was first announced as a flower vase and then as a silver tray has been salved. nounced as a flower vase and then as a silver tray, has been solved. There are two gifts from the French embassy, a silver flower vase, from Madame Jusserand, and a silver tray of Louis Quinz designed from the ambassador himself. So far as can be learned no gifts have arrived from forcign government or rulers direct.

One of the handsomest gifts yet received is that from the minister from Costa Rica and Madame Calvo. It is a vase of silver formed of flat panels, with hand-embossed design of lotus flowers in blossom.

Widening of Bridge Approach Finished,

Widening of Bridge Approach Finished, and Street Opened to Traffic.

In the completion this week of the widening of lower Seventh Street at its approach to the Free Bridge, one of the greatest improvements on the Southside has been made. The thoroughfare has been made twenty feet wider, from Semmes Street to the end of the bridge. Traffic, which is increasing daily on the Free Bridge, is greatly relieved of its former congestion. Vehicles can now pass along the street without using the car tracks, which allows the traction company to maintain a better service.

The Southern Railway has been notified to begin work on the widening of its Seventh Street tunnel, and when this is completed the whole bridge approach will be adequate for the traffic. It is understood that work on this will start shortly.
